

Teaching spaces evaluation summary

Updated: October 14, 2021

The HVAC working group has created a detailed evaluation summary of teaching spaces—teaching spaces equipped with/ without mechanical ventilation, teaching spaces that are not being used for regular teaching activities for Winter Term 1, and teaching spaces that have been upgraded.

Below is a list of UBC Vancouver teaching spaces that have been categorized to reference the teaching space ventilation type, and the current status for use at pre-pandemic capacity. This document will be updated as the status of the teaching space gets upgraded with additional measures and/or becomes available for use at pre-pandemic capacity.

Teaching spaces overview

Teaching spaces	Ventilation type	Status
892	Mechanically ventilated spaces or designed with passive ventilation	<ul style="list-style-type: none">• Use at pre-pandemic capacity
28	Limited or no mechanical ventilation—spaces have been evaluated	<ul style="list-style-type: none">• Upgraded with additional measures AND/OR• Have specific occupant instructions AND/OR• Have limited occupancy levels
15	Limited or no mechanical ventilation	<ul style="list-style-type: none">• Have not been fully evaluated (priority was placed on orange category spaces that weren't easy to re-locate or have specialized equipment needed for teaching)• Should not be used for full capacity teaching purposes until further assessment has been completed.• Will be evaluated for potential use in Term 2
